February 11th, 2007

Dear Editor,

We are delighted to read the Educational Insight section on Hindu Dharma, published by Hinduism Today. The beautifully illustrated 16 page overview of Hindu history, philosophy, culture, religious beliefs, etc. provides an excellent way for a young Hindu to start his or her journey towards exploring and experiencing our ancient spiritual tradition. In addition, the section links various philosophical themes to their relevance in modern times and how modern personalities have inculcated these themes to change their lives and impact the world. Moreover, the section is full of explanations of academic vocabulary as well as Hindu symbols, enabling a young mind to navigate through the material with ease.

Finally, the end of chapter assessments provide a good way of reinforcing the studied material and remembering important points, as well as encourage Hindu kids and young adults to pursue further study about the Hindu tradition.

We certainly hope that parents pick up a copy for their kids while teenagers and college students pick up a copy for themselves and their friends, in order to expand their understanding of Sanatana (Eternal) Hindu Dharma.

With Best Wishes,

Nikunj Trivedi
National President, Hindu Students Council

Hindu Students Council is an international forum providing students and young professionals an opportunity to learn about Hindu heritage and culture. HSC has 81 chapters across University and High School campuses in North America, and a wide network of like minded organizations around the globe. HSC is the largest Hindu student organization in the USA, with the participation of over 130,000 students and youth in our activities. For more information about HSC, please visit www.hscnet.org or email us at hsc@hscnet.org
